

1. Copy of this file in your Google drive account, or download it to your computer.
2. Place your personal photo on the first slide and fit it so your face shows through the center circle.
3. Click on your photo and select "send to background" (From the Google Drive app the command is "Arrange -> Send to background").
4. Download the first slide in jpg or png format (From the PowerPoint application the command is "File -> export -> Choose file format").
5. Ready! Upload your photo on your social networks. Don't forget to use the hashtags #ScienceCultureDay #ILiveScience.
